

ESET Smart Security 4

Fast, effective complete Internet security for your home.

ESET Smart Security protects you and your family's most valuable data from malicious software and internet attacks while eliminating annoying spam email.

Antivirus – Antispyware – Personal Firewall – Antispam

ESET Smart Security 4

FACTS

- Fact:** Surfing the web and using email are a part of daily life.
- Fact:** Criminals capitalise on this to their advantage, flooding the internet with over 100,000 new attacks every day, in effort to steal your identity or turn your computer into a 'zombie' to launch email spam and other internet crimes.
- Fact:** Over 150 million users worldwide trust ESET to defend themselves from these attacks.

ESET Smart Security is the most effective protection you can use to combat today's huge volumes of internet and email threats. It combines ESET's award winning NOD32 proactive antivirus and

antispyware protection with a powerful yet easy to use firewall and robust antispam technology.

Using our advanced ThreatSense® technology, ESET Smart Security proactively protects you from new attacks during the critical first hours when other vendors' products are not even aware the attack exists. ESET Smart Security detects and disables both known and unknown viruses, trojans, worms, adware, spyware, rootkits and other Internet threats.

ESET Smart Security is also faster than any other Internet security suite, so fast you won't even notice it running. It's easy to use yet simple to optimise for your specific needs.

ESET Smart Security is security you can trust – every hour of every day.

KEY BENEFITS

Built for speed	ESET Smart Security is lightning fast, so fast you won't notice it's there. Even disk intensive operations like performing a full disk scan runs smoothly in the background while you work and play.
Easy on your system resources	ESET Smart Security is 'lean and mean' using just 45MB of memory, a fraction of what other products consume. Because it's fast and light, upgrading your existing internet security to ESET Smart Security can literally be like buying a new computer. Laptop users can rejoice in the new automatic energy sipping battery mode.
Easy on you	From its compact and intuitive user interface to its minimal use of alerts, self training firewall and other new features, ESET Smart Security is easier to use than ever before.
Protection from the unknown	Our award winning Threatsense technology uses multiple layers of threat detection to deliver the most effective protection possible against attacks. Threatsense is smart; it raises far fewer annoying 'false alarms' than any other products that use heuristics.

SYSTEM REQUIREMENTS:

Processors supported:

Intel or AMD x86 & x64

Operating Systems:

Microsoft Windows 7 (32 and 64-bit editions)
 Microsoft Windows Vista (32 and 64-bit editions)
 Microsoft Windows XP (32 and 64-bit editions)
 Microsoft Windows 2000

Memory:

45 MB

Disk Space (download):

36 MB

Disk Space (installation):

50 MB
