

BlackBerry® from O₂ Smartphone Range

The pocket-sized all-in-one wireless solution for managing your business and personal communications on the move. BlackBerry® from O2 means you're 'always on, always connected'.

O2 offers a range of BlackBerry smartphones so you can choose the one that best meets your needs. A BlackBerry smartphone is the ideal combined device for voice, text, email, browsing and data applications. You can choose between PDA devices with QWERTY keyboards or if you prefer a phone style device, choose a BlackBerry smartphone with a SureType® keyboard.

BlackBerry® Curve™ 8310 smartphone

The BlackBerry Curve 8310 is a QWERTY device with integrated camera and ideal for business customers who want a full keyboard to type messages and enter data quickly and still want the device to double up as a great phone:

- Inbuilt GPS and BlackBerry® Maps give you an international route planning service. Use the GPS to find your current location and then get a route plan to any address. Add on Telmap Navigator for full satellite navigation¹
- 2 megapixel camera with flash and x5 zoom
- Full QWERTY keyboard for fast data entry
- Small and light but with a great size, high resolution screen for easy viewing
- Great multimedia experience – a full screen mode for playing back videos², 3.5mm industry standard audio jack
- Spell checker to keep your messages professional.

BlackBerry® Pearl™ 8110 Smartphone

The core business phone form factor BlackBerry smartphone. This compact device features all the standard BlackBerry functionality plus a camera, great browsing and processor capability and memory expansion.

- Ultra-slim design with all the BlackBerry benefits and ease of use
- Compact QWERTY keyboard with SureType® technology
- Bright, high resolution display screen
- 1.3 megapixel camera
- Speaker phone for hands free voice calling and conference calls

BlackBerry® Pearl™ 8110 and 8120 Smartphone

The BlackBerry Pearl 8110 and 8120 combine the great functionality and compact size of the BlackBerry Pearl 8100 smartphone with advanced multimedia features.

- The BlackBerry Pearl 8120 has 802.11b/g Wi-Fi technology – browse faster, download attachments quickly and email whilst on a call³
- The BlackBerry Pearl 8110 has fully integrated GPS capabilities and can be upgraded to full satellite navigation with Telmap¹
- 2.0 megapixel camera with flash, media-player, audio and video
- Spell-checker keeps messages professional
- Improved SureType® with word completion for faster typing
- Slim, sleek design in blue, the BlackBerry Pearl 8110 is also available in pink.

¹Telmap satellite navigation available as an optional extra. ²All audio and video files must be transferred to the smartphone before playing. Files can be transferred via USB cable, smartphone browser application or Bluetooth™. ³Subject to customer IT policy, infrastructure and Wi-Fi coverage.

BlackBerry® 8800 smartphone

The BlackBerry 8800 from O2 is a high-performance handset for business customers. Ideal if you want key services like email, Internet browsing, data applications and voice on one device:

- Latest trackball user interface for convenient one-handed or faster two-handed operation
- Full QWERTY keyboard for fast data entry
- High resolution, light-sensing screen – optimises LCD screen lighting levels automatically for ideal indoor and outdoor viewing
- Bluetooth® support and built-in speakerphone for hands-free operation
- Inbuilt GPS and BlackBerry® maps gives you an international route planning service. Use the GPS to find your current location and then get a route plan to any address. Add on Telmap Navigator for full satellite navigation¹
- Comprehensive phone features with intuitive call management capabilities such as smart dialling, conference calling, speed dial and call forwarding
- Quad-band handheld, operates on 850/900/1800/1900 MHz GSM/GPRS/EDGE wireless networks, allowing for international roaming between North America, Europe and Asia Pacific
- Enhanced web browser with 'Desktop View' mode.

BlackBerry® 8707g smartphone

The BlackBerry 8707g is a premium QWERTY BlackBerry smartphone for customers travelling to Japan who also want an optimal, all-in-one device for push email, browsing, applications and voice. Features include:

- Enhanced roaming capabilities – supports 3G UMTS networks, alongside quad band GSM/GPRS capability²
- 3G means emails can be sent and received whilst you are also making a voice call – useful during conference calls³
- Light sensing screen – optimises LCD lighting levels automatically for ideal indoor and outdoor viewing
- Dedicated Send, End and Mute keys so that managing calls is easy
- It's the only BlackBerry smartphone from O2 that supports roaming in Japan
- All-in-one device for push email, browsing, applications and voice
- 64MB Flash RAM & 16MB SDRAM – more memory, so more space for data and applications
- Bluetooth® enabled – car kit profile as well as hands-free and headset.

¹Telmap satellite navigation supplied as an optional extra. ²Requires 3G SIM card. ³Subject to 3G coverage.

More devices will become available in the future so keep an eye on www.o2.co.uk/blackberry

In addition to BlackBerry smartphones O2 supports BlackBerry functionality on a number of other devices through the BlackBerry® Connect™ Licensing Programme. This allows O2 to offer its customers an even greater choice of devices. Below are some of the BlackBerry® Connect™ devices:

Nokia E Series – E51 and E90

The E series from Nokia includes some of the latest smartphones to enter the BlackBerry® Connect™ range. These user friendly smartphones provide both voice and email so you can be at your desk whilst you are out of the office.

Sony Ericsson P1i

The Sony Ericsson P1i is a stylish and compact business device offering you mobile efficiency that keeps you in touch and easily fits into your pocket.

Xda Stellar

This high capacity all-in-one solution is the ideal business device for customers requiring the full functionality of a mobile phone and PDA and with the added benefit of in-built GPS.

What do I need?

- A BlackBerry Smartphone – choose from our range of models
- BlackBerry® Internet Solution from O2 – Integrate up to 10 email accounts with your BlackBerry smartphone. Works with many Internet Service Provider (ISP) email accounts, including Yahoo!® Mail, BT Broadband and company email accounts that allow web access or email forwarding. Your emails are pushed directly to your device
- BlackBerry® Enterprise Solution from O2 if you have your own company email servers (Microsoft Exchange®, Lotus® Domino®, or Novell® GroupWise) and need to:
 - Access your company email, data, Intranet or the web with higher levels of security
 - Mobilise applications
 - Access administration features that support end user management (e.g. password policy management)
- An O2 voice tariff if you want to use your device as an all-in-one phone and data solution. There's a range of voice tariffs to choose from depending on your needs.

How much does it cost?

Please talk to an O2 representative as the BlackBerry Smartphone price will vary depending on the tariff you take and the number of devices you buy.
